

## Introduction

PLASTCO designs water and waste water treatment chemicals and equipment and builds turnkey plants with development, engineering, fabrication, testing, erection and commissioning all under one roof. The vast and varied scope of supply in essence covers the field of water and waste water treatment technology, which also includes processes for the protection of environment.

PLASTCO manufactures water and waste water treatment chemicals and equipments to fit the needs of industries. PLASTCO is an organisation of engineers and chemists, Teams of specialists with experienced in virtually all the engineering disciplines and technologies.

## About Us

Established in the 2000, We PLASTCO INDUSTRIES are an eminent manufacturer, supplier, and exporter. Wholesaler and authorized distributor of PENTAIR (Membrane & Pump), FILMTECH DOW Membrane for Eastern India. Trade of a wide array of Domestic RO water purifier UV Filter UF Filter Manual Storage Filter and Spares Components of entire domestic Filters. Since our company has commenced business, we have maintained high standards of quality for our products & continue to do so.

The products are manufactured by utilizing latest technology along with high grade materials and components.

## Quality Achievements

Further, being a highly quality centric firm, we have adopted many measures that ensure that the final products are of unquestionable quality, Right from appointing industries experts to keep a vigilance upon every production method taking place to carrying rigorous quality tests, to ascertain the quality, the products as flawless in nature.

As a result of our immense dedication towards quality, the offered products are appreciated for their reliable nature, high output capacity, best result, and easy operation easy installation, safe and long life. Our is a client oriented company; Hence, we make sure that every requirement of your clients in catered in the most preferred manner. In order to understand the requirements of our valued clients precisely, we have assigned a separate team of client relation manager.

## WHY U OPT PLASTCO:

1. Your satisfaction is our Moto.
2. We design the system as per requirements.

3. We do optimum utilization of technologies.
4. Wide range of available models.
5. Unmatched relation years to years.
6. Customer relation years to years.

## **Water Treatment and Equipment Parts Services**

Our excellent in this line of work enables us to render Water Treatment Services as per the specific needs of our clients. Reliable and cost-effective, the services are provided to remove all the impurities from water. Our experts use modern tools while rendering these services and ensure that clients are satisfied with the outcome. Offered at market leading prices, the services are demanded by government agencies, private offices and housing societies as well.

## **Products Range**

- WATER TREATMENT COMPONENTS
- WATER TREATMENT PLANTS
- WATER TREATMENT CHEMICAL PLANTS
- SAND FILTRATION
- U. V. SYSTEMS
- R. O. SYSTEMS
- P. P. VALVES & FITTINGS
- STRAINERS
- EJECTOR CHLORINATOR BAG
- MPV VALVES
- FILTER CARTRIDGES
- DOSING PUMP

## **Waste Water Treatment System**

We are engaged in manufacturing and supplying a wide range of water treatment system.

## **Some of the Features include:**

- Easy to Operate
- Corrosion resistant
- High Efficiency
- Low Maintenance
- Durable
- No Breakdown

Our tremendous success in this highly competitive sector is solely credited to the resources owned by us and our manpower being one of them. We have a team of professionals who have

immense in handling has sophisticated manufacturing process and later in providing effectual turnkey services to our clients.

We have an excellent infrastructure to design, engineer, manufacture, carry out erection and commissioning the complete range of water treatment plant and systems to suit various requirements.

## Products Gallery

### INDUSTRIAL PRODUCTS

			
FRP Vessels	DOW Membrane	Membrane Housing	LUBI High Pressure Pump
			
Hydronautics Membrane	Strainers	IN/ultiport Valves	IN/ultiport Valves
			
IN/ultiport Valves	H.P/LP Switch	Floaty	Dosing Pump
			
Rota Meter	Pressure Gauge	Vaccum Breaker	RO Control Panel

		
Ozone Generator Range: 1gm - 20gm	UV Sterilizer Range: 250LPH-50,000LPH	

## DOMESTIC PRODUCTS

			
A G + Plastco	Plastco Super Star	Plastco Grand Star	Plastco Novo
			
Plastco Dzire	Plastco Dzire	Plastco JET	Plastco Accent
			
Plastco Dolphin	Plastco Compac	Plastco Hyundai	Plastco 5 Stage RO
			
Plastco Magic	Plastco Dolphino	Plastco Pearl	Plastco LED
